Treasurer's Sale of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Queen's Printer and Publisher for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Department of Lands and Forests whether or not the land or any part can be purchased or leased from the Department. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

Treasurer's Sale of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Queen's Printer and Publisher for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Department of Lands and Forests whether or not the land or any part can be purchased or leased from the Department. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

**IN THE COUNTY COURT
OF THE COUNTY OF HALTON**

IN THE MATTER OF The Municipal Act, Revised Statutes of Ontario, Chapter 249, Section 379(1)95; and

IN THE MATTER OF proposed By-law 1971-39 of The Corporation of the Town of Oakville entitled "A by-law to change the name of certain streets (Dewart Avenue, Leighland Road, Pine Grove Road, McPherson Street, Sewell Place and Linbrook Road)".

NOTICE

1. The Council of The Corporation of the Town of Oakville proposes to pass By-law 1971-39 to change the names of the following streets and parts of streets for the reasons following each proposed change:

- (1) The name of Dewart Avenue within Registered Plan No. 114 to be changed to Carson Lane. The name Dewart is being confused with Stewart and persons living on this street have petitioned for a change.
- (2) The name Leighland Road within Registered Plan No. 344 to be changed to Leighland Avenue. The name Leighland Road applies to four lots only according to Registered Plan No. 344 while Leighland Avenue applies to Registered Plans Nos. 374, 409 and 1300 and the change will make the name consistent.
- (3) The name of Pine Grove Road within Registered Plans Nos. 619, 682, 725 and 843 to be changed to Pinegrove Road. The street is shown as Pinegrove Road on Registered Plans Nos. 651, 681, 891 and M-17 while it is shown as Pine Grove Road on Registered Plans Nos. 619, 682, 725, 835 and 843. More addresses have been established as Pinegrove Road and that spelling is now proposed throughout the length of the street.
- (4) The name McPherson Street in Registered Plan No. 418 to be changed to McGregor Street. The name conflicts with McPherson Road in Lot 33, Concession 3, South of Dundas Street, upon which a number of addresses have been established while no development has taken place on McPherson Street the name of which is to be changed.
- (5) The name Sewell Place in Registered Plan No. 418 to be changed to Sewell Drive. No addresses have been established on the street the name of which is to be changed, and the name Sewell Drive has been used for other parts of the same street in Registered Plans Nos. 1090 and M-15.
- (6) The name Lynbrook Road is to be changed to Linbrook Road. The street has been referred to with both spellings and the change will remove the uncertainty.

2. Before the by-law is finally passed, it must be approved by the Judge of the County Court of the County of Halton.

3. The Judge has appointed Tuesday, the 10th day of August, 1971, at 9.30 o'clock in the forenoon, at the Municipal Building, 1225 Trafalgar Road, Oakville, for considering the by-law and for hearing those advocating and opposing the changes.

Dated the 17th day of July, 1971.

D. W. BROWN,
Town Clerk.

9. Notwithstanding sections 7 and 8 the payment computed in accordance with section 7 shall be reduced in proportion to the ratio of the number of resident miners to population multiplied by 10, where the coefficient so obtained is less than one, and where the coefficient so obtained is equal to or greater than one, the payment shall be computed in accordance with section 7. 16. No municipality, other than a municipality designated in this Regulation, shall be eligible for designation as a mining municipality unless at least

2½ per cent of the population is employed full time by the mining industry. O. Reg. 290/71, s. 16.

22. Where, in the opinion of the Minister, the 1971 payment pursuant to section 20 would result in an additional burden to taxpayers, the Minister may increase the payment for that year. O. Reg. 290/71, s. 22.

23. Where the payment in section 7 exceeds the 1970 mining payment as determined by the Minister pursuant to section 18, the 1971 payment shall not be less than the 1970 mining payment as determined by the Minister pursuant to section 18. O. Reg. 290/71, s. 23.

Treasurer's Sale of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Queen's Printer and Publisher for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Department of Lands and Forests whether or not the land or any part can be purchased or leased from the Department. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

PART XII

FINANCIAL DISCLOSURE

76.—(1) For the purpose of sections 76 to 79 of this Part,

- (a) "ordinary shares" means those shares of a company which represent the residual equity in the earnings of the company;
- (b) "potential dilutive factors" include potential conversions of senior shares or debt

obligations, exercises of rights, warrants and options and contingent issuances existing at the end of the period that would be dilutive, if they occurred;

- (c) "senior shares" means all the shares of a company other than the ordinary shares.

(2) In determining whether shares are ordinary shares or senior shares it is the rights and privileges of the shares in relations to the earnings of the company rather than their corporate designation which shall govern.

77.—(1) The calculations of basic earnings per share shall be based on the ordinary shares outstanding during the period and on earnings available to the holders of ordinary shares, and prior claims on income shall be deducted for purposes of the calculations.

(2) Income figures used in the calculation of basic earnings per share shall be the reported amounts reduced by,

- (a) as to non-cumulative senior shares, the dividends declared, payable in cash or otherwise, during the period;
- (b) as to cumulative senior shares, the prescribed dividend, payable in cash or otherwise, whether or not declared.

(3) Where ordinary shares have been issued during the period, the basic earnings per share shall be calculated using a weighted average of shares outstanding during the period.

(4) In the case of business combinations or acquisitions involving the issue of ordinary shares, the calculation of the weighted average of ordinary shares outstanding during the period shall consider the ordinary shares as having been issued at the date from which the results of operations of the acquired business are included in the income statement.

(5) In the case of ordinary shares issued on conversion of senior shares or debt obligations, the calculation of the weighted average of ordinary shares outstanding during the period shall consider the ordinary shares as having been issued as at the date of termination of the dividend or interest obligations.

(6) Where ordinary shares have been issued in connection with a stock dividend on ordinary shares or there has been a stock split or reverse split during the period or subsequent to the date of the balance sheet, the basic earnings per share shall be calculated recognizing the new share structure as though it had existed from the beginning of the period.

(7) In calculating basic earnings per share where ordinary shares have been issued as a stock dividend on senior shares, the ordinary shares shall be recognized only from the date of issue.

78.—(1) For the purposes of calculating fully diluted earnings per share the income figures shall be those determined in accordance with subsections 1 and 2 of section 77 increased by the following,

- (a) the amount of dividends applicable to convertible senior shares for the period;
- (b) the amount of interest expensed for the period, after income taxes, on convertible debt obligations; and
- (c) imputed earnings, after income taxes, on the cash which would have been received on the exercise of rights, warrants and options and contingent issuances at an appropriate rate of return.

(2) The rate of return used for imputing earnings in subsection 1 shall be disclosed together with the dollar amount of imputed earnings after income taxes.

(3) Fully diluted earnings per share figures for the period shall be calculated as though all ordinary shares related to potential dilutive factors had actually been issued at the beginning of that period or date of issuance of the convertible or other security, if later.

(4) Where the basis of conversion or the exercise price will change from time to time, the calculation of fully diluted earnings per share shall be based on the conversion or the exercise of rights which have the most dilutive effect on earnings per share.

(5) The calculation of fully diluted earnings per share shall exclude any potential conversion of senior shares or debt obligations, exercise of rights, warrants and options and contingent issuances that would increase earnings per share or decrease a loss per share.

(6) Conversions or exercises of rights that do not become effective within ten years following the date of the balance sheet shall not be considered as a dilutive factor.

(7) Fully diluted earnings per share figures of a holding company shall reflect any dilutive factors which exist in subsidiaries which are consolidated or carried on an equity basis.

79. Where unconsolidated subsidiaries are carried by a holding company on a cost basis, the note to the financial statements which discloses the increase or decrease in the holding company's interest in the undistributed income of the subsidiaries during the period shall be supplemented by disclosing basic earnings per share, and where applicable, fully diluted earnings per share computed as if the investment in the subsidiaries had been carried on an equity basis.

80. For the purpose of sections 80 to 83 of this Part,

- (a) "common shares" means the shares of a company to which there is attached no preference, right, condition, restriction, limitation or prohibition set out in the instrument of incorporation of the company other than a restriction on the allotment, issue or transfer;
- (b) "economic unit" includes a business or any unit of business conducted by any person or company or any combination of persons or companies regardless of the form in which the business or unit of business is carried on;
- (c) "pooling" and "pooling of interests accounting" include accounting in the financial statements of the combined company for the net assets acquired at the value at which they are carried in the books of the combining companies and the restatement of the comparative financial statements as though the companies had been combined for that period;
- (d) "purchase accounting" includes accounting in the financial statements of an acquiring economic unit for the net assets acquired at their cost to that economic unit on the date of acquisition;
- (e) "special shares" means all shares of a company other than common shares.

81.—(1) The acquisition equation referred to in paragraph 17 of subsection 3 of section 125 of the Act shall be,

- (a) net assets acquired in the transaction, comprised of the amount of,
 - (i) net assets, other than goodwill, at the book value of the seller,
 - (ii) adjustment of net assets, other than goodwill, if necessary,
 - a. on purchase, to fair value,
 - b. on pooling of interests, to conform with the accounting practices of the acquiring company,
 - (iii) any goodwill on the books of the seller, and
 - (iv) on purchase, the premium or discount ascribed to goodwill; or on pooling of interests, the excess, if any, of consideration given over total net assets on the books of the seller;

equated to,

- (b) consideration given, at fair value, for net assets acquired, comprised of the amount of,

- (i) cash, bank loans and other working capital payments,
- (ii) long term debt obligations,
- (iii) common shares,
- (iv) special shares, and
- (v) any other consideration, direct or indirect, indicating the nature thereof.

(2) Where part of the assets mentioned in clause *a* of subsection 1 includes net assets, other than goodwill, on the books of the seller or includes goodwill on the books of the seller, the notes to the financial statements which contain the acquisition equation shall also disclose the amount, if any, by which those values have been written up on the books of the seller within five years preceding the acquisition date.

(3) Where part of the consideration mentioned in clause *b* of subsection 1 is given by way of long term debt obligations, common shares or special shares, the notes to the financial statements which contain the acquisition equation shall also disclose,

- (a) the terms of the debt obligations, including interest payable thereon, convertible features, if any, terms of repayment and other material conditions; or,
- (b) the number, description and book value of the shares issued or exchanged,

as the case may be.

82.—(1) Where the purchase method is used in accounting for a business combination, there shall also be disclosed by way of notes to the financial statements,

- (a) the name and a brief description of each economic unit acquired, and where shares are acquired, the percentage of outstanding equity shares acquired;
- (b) a statement that purchase accounting was used;
- (c) the legal method by which the acquisition took place;
- (d) the date of acquisition and the period for which results of the operations of the acquired economic unit are included in the income statement of the acquiring economic unit; and
- (e) whether it is proposed to amortize any goodwill arising as a result of the purchase and, if so, an outline of the plan of amortization.

(2) Where the purchase method is used in accounting for a number of relatively minor acquisitions, information may be combined for disclosure.

NOTES:

1. TO THE PARENTS OR CUSTODIANS

Hearings under *The Child Welfare Act, 1965* are held in the Provincial Court (Family Division). They are not open to the press except with the leave of the judge.

You are, of course, entitled to your own legal advisor at the hearing. If you feel you cannot afford to retain a legal advisor you should apply to the nearest Legal Aid Office to discuss the matter. If you, as the parent or custodian, are not twenty-one years of age, the Court will appoint a guardian *ad litem* to protect your interests at the time of the hearing.

The judge at the hearing may make one of several orders respecting your child, whether or not you are present, namely,

(a) he may dismiss the application;

(b) he may adjourn it;

(c) he may adjourn it and require the children's aid society to supervise the child in your home;

(d) he may order the child to be made a ward of the society for a temporary period of time not exceeding twelve months and such order may be reviewed from time to time but in no case shall an order be made that results in the child being a ward of the society for a continuous period of more than twenty-four months; or

(e) he may order the child to be made a ward of the Crown.

The judge may order you to pay an amount of \$1.50 per day for part of the cost of maintaining the child in the care of the children's aid society where any of the foregoing orders results in the society assuming the care of the child.

As an agent of the Province, the children's aid society having the care of wards assumes the rights and responsibilities of a legal guardian for any child who becomes a ward by an order of the court. The society may place a Crown ward on adoption.

Any order of the judge made at the hearing may be appealed to a county or district court judge within thirty days of the making of the order. At the appeal hearing new evidence may be presented and further points of law raised.

In the event that your child has been made a Crown ward and you, at some future time, wish the child returned because of changes in your circumstances or for other reasons, you should ask your local children's aid society if it will apply to the Court for termination of the Crown wardship and the return of the child to you, or you may apply yourself to the Provincial Court (Family Division) for such termination.

TERMINATION WILL NOT BE GRANTED IF THIRTY DAYS HAVE EXPIRED FROM THE DATE OF THE ORDER OF CROWN WARSHIP AND THE SOCIETY HAS ALREADY PLACED THE CHILD ON ADOPTION.

If you are confused or uncertain about your rights, your child's rights, procedures of the Court or any other matter related to the hearing, wardship, access to your child or visiting arrangements should he go into the care of the society, discuss it fully before the date of the hearing with your children's aid society, legal advisor or an official of the Court.

TERMS AND CONDITIONS

INSURABLE LAND

1. No land shall be insured under this contract unless the insured person is insured under a contract of insurance under the Act for a spring sown crop.

CAUSES OF LOSS INSURED AGAINST

2. This contract insures against loss arising when the seeding or planting of a crop is prevented by excessive moisture or flood.

- (b) a shortage of labour or machinery; or
- (c) a peril other than the perils designated in the plan.

DURATION OF INSURANCE

4. This contract is in force for the term in respect of which it is made.

EXTENT OF INSURANCE

5.—(1) The insured person shall offer for insurance all land intended to be seeded or planted to a spring crop on the farm or farms operated by him in Ontario, and subject to subparagraph 2, this contract applies to all such land.

(2) This contract does not apply to, and no indemnity is payable in respect of land,

(a) that is orchard land, pasture, woodland, seeded to a perennial crop, fall sown or intended for summer fallow; or

(b) that, in the opinion of the Commission, is not insurable.

COVERAGE

6. The coverage provided by this contract shall be determined by the Commission in accordance with section 8 of the plan.

2. The first 10 per cent of all other land.

(a) the deductible acreage for each claim year shall increase by 5 per cent to a maximum of 20 per cent; and

(b) for each no claim year immediately following two consecutive no claim years, the deductible acreage shall decrease by 5 per cent to a minimum of 5 per cent.

(4) Notwithstanding subparagraphs 2 and 3, the deductible acreage in respect of a claim shall not be less than the minimum percentage of deductible acreage under subparagraphs 2 and 3 applied to the total acreage.

PREMIUM

8. The amount of premium payable by the insured person in respect of the insured land shall be determined and paid in accordance with the provisions of the plan.

TERM OF INSURANCE

9. The term of insurance is the period from the 1st day of March to the 1st day of August next following.

EVALUATION OF LOSS

10. For the purposes of this plan, a loss shall be deemed to have occurred when, as a result of one or more of the insured perils, the insured land or any part thereof in excess of the deductible acreage prescribed by paragraph 7 remains unseeded after the last date for planting in the area or after such other date as may be determined from time to time by the Commission.

NOTICE OF LOSS

(2) Where the insured person fails to notify the Commission pursuant to subparagraph 1 a claim by the insured person is invalid and his right to indemnity is forfeited.

INCORRECT ACREAGE

12.—(1) Where the actual insurable acreage is greater than the acreage insured, for the purpose of calculating the indemnity, the number of acres unplanted due to an insured peril shall be deemed to be reduced proportionately.

(2) Where the actual insurable acreage is less than the acreage insured, for the purpose of calculating the indemnity, the number of insured acres shall be deemed to be reduced accordingly.

MISREPRESENTATION, VIOLATION

INTEREST OF OTHER PERSONS

15. Notwithstanding that a person other than the insured person holds an interest of any kind in the insured land, for the purposes of this contract,

- (a) the interest of the insured person in the insured land is deemed to be the full value of the insurance; and
- (b) except as provided in paragraph 16, no indemnity shall be paid to any person other than the insured person.

ASSIGNMENT OF RIGHT TO INDEMNITY

16. The insured person may assign all or part of his right to indemnity under this contract but an assignment is not binding on the Commission and no payment of indemnity shall be made to an assignee unless,

- (a) the assignment is made on a form provided by the Commission; and
- (b) the Commission consents thereto in writing.

ADJUSTMENT OF LOSS

17.—(1) The indemnity payable for loss shall be determined in the manner prescribed by this contract.

(2) The Commission may cause the loss to be appraised by any method that it deems proper.

(3) No indemnity shall be paid for a loss unless the insured person establishes that the loss or part thereof resulted directly from one or more of the perils insured against.

(4) Where a loss resulted partly from a peril insured against and partly from a cause of loss not insured against, the Commission shall determine the amount of the loss that resulted from the cause of loss not insured against, and the indemnity payable by the Commission under this contract shall be reduced accordingly.

PROOF OF LOSS

18.—(1) A claim for indemnity in respect of the insured land shall be made on a proof of loss form provided by the Commission and shall be filed with the Commission not later than the 10th day of July.

(2) Subject to subparagraph 3, a claim for indemnity shall be made by the insured person.

(3) A claim for indemnity may be made,

- (a) in the case of the absence or inability of the insured person, by his agent; or
- (b) in the case of the absence or inability of the insured person or on his failure or refusal to do so, by an assignee under an assignment made in accordance with paragraph 16.

(4) Where required by the Commission, the information given in a proof of loss form shall be verified by statutory declaration.

ARBITRATION

19. Where the Commission and the insured person fail to resolve any dispute respecting the adjustment of a loss under this contract, the matter shall be determined by arbitration in accordance with the regulations.

TIME FOR PAYMENT OF INDEMNITY

20.—(1) No indemnity under this contract becomes due and payable until the end of the term of insurance.

(2) Where the indemnity payable by the Commission under this contract is established by the filing of a proof of loss form or by an award of an arbitrator or board of arbitration, it shall be paid within sixty days of the receipt by the Commission of the proof of loss form or award, as the case may be.

(3) Nothing in this paragraph prevents the Commission from paying indemnity under this contract at an earlier date.

SUBROGATION

21. Where the Commission has paid a claim under this contract, the Commission is subrogated to the extent thereof to all rights of recovery of the insured person against any person and may bring action in the name of the insured person to enforce those rights.

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Queen's Printer and Publisher for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Department of Lands and Forests whether or not the land or any part can be purchased or leased from the Department. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

1. In this Regulation,

- (a) "assessment," except assessment of a concentrator or smelter, means for any year the assessment that is liable to taxation for such year and that is shown on the assessment roll prepared in the year next preceding such year, as revised and certified;
- (b) "assessment equalization factor for 1970" means, in respect of a municipality, the equalization factor that is based on the assessment for 1970;
- (c) "assessment equalization factor for 1969" means, in respect of a municipality, the equalization factor that is based on the assessment for 1969;
- (d) "commercial assessment" for public school purposes or for secondary school purposes means that portion of the commercial assessment as defined in clause a of section 101 of *The Schools Administration Act* that is rateable for public school purposes or for secondary school purposes, as the case may be;
- (e) "equalized assessment" for public school purposes or for secondary school purposes means, in respect of a municipality or a part thereof, the sum of,
 - (i) the residential and farm assessment for 1969 for public school purposes or for secondary school purposes, as the case may be, in the municipality or the part thereof, adjusted by the assessment equalization factor for 1969,
 - (ii) 111.11 per cent of the commercial assessment for 1969 for public school purposes or for secondary school purposes, as the case may be, in the municipality or the part thereof, adjusted by the assessment equalization factor for 1969,

- (iii) in the case of a designated mining municipality where no taxes are receivable in 1970 by the divisional board or on its behalf for public school purposes or for secondary school purposes, as the case may be, from the assessment of a concentrator or smelter under section 87 of *The Assessment Act, 1968-69*, 111.11 per cent of the amount that, if levied upon at the post-subsidy break-even mill rate for 1969 in respect of commercial assessment for such purposes in the municipality or the part thereof, would yield a sum equal to the monies receivable by the designated mining municipality on behalf of the divisional board for such purposes for 1969 in respect of the municipality or the part thereof, such amount being adjusted by the assessment equalization factor for 1969, and

- (iv) in the case of a municipality or a part thereof where taxes are receivable in 1970 by the divisional board or on its behalf for public school purposes or for secondary school purposes, as the case may be, from the assessment of a concentrator or smelter under section 87 of *The Assessment Act, 1968-69*, 111.11 per cent of the sum of,

- a. the assessment of the concentrator or smelter rateable in 1970 for such purposes under section 87 of *The Assessment Act, 1968-69*, adjusted by the appropriate assessment equalization factor for 1970, and

- b. in the case of a designated mining municipality, the amount that, if levied upon at the rate that is the sum of the post-subsidy break-even mill rate for 1969 in respect of commercial assessment for public school purposes or for secondary school purposes, as the case may be, in the municipality or the part thereof, and the quotient obtained by dividing 55.55 by the assessment equalization factor for 1969, would yield a sum equal to that portion of the monies receivable by the designated mining municipality for 1970 that is required by the Minister of Municipal Affairs to be

applied in 1970 to the reduction of taxes for such purposes in respect of the municipality or the part thereof, such amount being adjusted by the assessment equalization factor for 1970;

(f) "municipality" means a city, town, village or township and includes a part of territory without municipal organization that is deemed to be a district municipality under subsection 3 of section 81 of the Act;

(g) "post-subsidy break-even mill rate for 1969" in respect of residential and farm assessment or in respect of commercial assessment means the mill rate, determined in the manner set out in section 105 of *The School Administration Act*, that is required to be levied on residential and farm assessment or on commercial assessment, as the case may be, for 1969 in a municipality or a part thereof in order to provide the pre-subsidy break-even requirement for the municipality or the part thereof for public school purposes or for secondary school purposes, as the case may be, less the sum of,

(i) the education mill rate subsidy for 1969 payable to the divisional board for public school purposes or for secondary school purposes, as the case may be, on behalf of the municipality or the part thereof, and

(ii) in the case of a designated mining municipality, the amount receivable by the designated mining municipality for 1969 on behalf of the divisional board for public school purposes or for secondary school purposes, as the case may be;

(h) "pre-subsidy break-even requirement for a municipality or a part thereof" means the portion of the pre-subsidy break-even requirement of the board for 1969 for public school purposes or for secondary school purposes, as the case may be, that is apportioned to the municipality or the part thereof;

(i) "pre-subsidy break-even requirement of a board for 1969" means the total amount that, if there were,

(i) no education mill rate subsidy,

(ii) no grant to the board for the purpose of reducing by 67 per cent the mill rate for secondary school purposes in 1969 in a municipality or a

part thereof that in the year 1968 was not in a secondary school district, and

(iii) no payment to a designated mining municipality,

payable for 1969 in respect of any municipality or part thereof in the school division, would have been requisitioned in 1969 by the divisional board for public school purposes or for secondary school purposes, from the municipalities and the parts thereof in the school division in order to provide as at the end of the year neither an increase nor a decrease in the surplus, deficit or reserves for public school purposes or for secondary school purposes, as the case may be, accumulated by the divisional board as at the beginning of the year;

(j) "residential and farm assessment" for public school purposes or for secondary school purposes means that portion of the residential and farm assessment as defined in clause b of section 101 of *The Schools Administration Act* that is rateable for public school purposes or for secondary school purposes, as the case may be.

2.—(1) The sum, exclusive of any amount in respect of adjustments contained in the decision of the arbitrators under section 84 of the Act, required by a divisional board for public school purposes or for secondary school purposes, as the case may be, for the year 1970 shall be apportioned among the municipalities and the parts thereof in the school division by,

(a) multiplying, in respect of each such municipality or part thereof,

(i) the residential and farm assessment for 1970, adjusted in accordance with subsection 2 where applicable, by the post-subsidy break-even mill rate for 1969 in respect of residential and farm assessment, and

(ii) the sum of,

a. the commercial assessment for 1970, adjusted in accordance with subsection 2 where applicable, and

b. the amount that would be determined under subclause iii of clause e of section 1 or under sub-subclause b of sub-clause iv of clause e of section 1, as the case may be, if 100 per cent were substituted for 111.11 per cent in subclauses iii and iv and the adjustment by the assessment equalization factor were not made,

by the post-subsidy break-even mill rate for 1969 in respect of commercial assessment;

- (b) dividing by 1000 the sum of the products obtained for each such municipality or part thereof under clause *a*;
- (c) ascertaining the aggregate of the results determined under clause *b* for all the municipalities or the parts thereof within the jurisdiction of the board;
- (d) dividing the results determined under clause *b* for each municipality or part thereof by the aggregate determined under clause *c*, correct to five places of decimals;
- (e) multiplying the sum required to be levied by the product of .7 and each of the decimal fractions determined under clause *d*;
- (f) multiplying the ratio, correct to five places of decimals, of the equalized assessment for each municipality or part thereof to the total equalized assessment in the school division by the product of .3 and the sum required to be levied; and
- (g) adding the amounts determined under clauses *e* and *f* for each municipality or part thereof,

to ascertain the total amount required from each such municipality or part thereof for public school purposes or for secondary school purposes, as the case may be.

(2) Where, in a municipality, the general level of assessment for 1970 is higher than the general level of assessment for 1969, the residential and farm assessment for 1970 and the commercial assessment for 1970 shall, before being used in clause *a* of subsection 1, be multiplied by the quotient obtained by dividing the sum of,

- (a) the assessment for 1969, and
- (b) the assessment that is liable to taxation and is added to the collector's roll in the municipality in 1969,

by the assessment for 1970.

3. Section 3 of Ontario Regulation 57/70, as made by section 1 of Ontario Regulation 108/70, is amended by striking out "district municipality" in the first line.
